

BALCONY EDGE TRIM - Aluminium

Product Description:

B.A.T. Balcony Edge Trims are designed to provide a practical and aesthetic finish for Balconies. The Trim facilitates a clean finish to the face of a Balcony, with the bottom edge of the trim designed to deflect water away from the Balcony face, avoiding unsightly water staining. Weep holes now come as a standard feature of the trim.

Technical Details:

B.A.T. Balcony Edge Trims are manufactured in Alloy 6063 T5 to the following chemical composition:

Si %	0.20 – 0.60
Fe %	0.35
Cu %	0.10
Mn %	0.45 – 0.90
Cr %	0.10
Ti %	0.10
Other %	Balance
Length	3.00 metres

Installation and Maintenance:

It is important to remove adhesive or grout residue from all visible surfaces during installation.

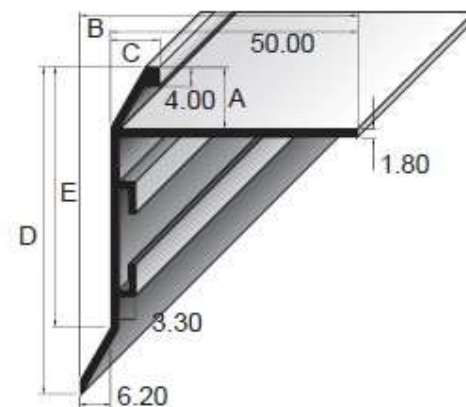

Abrasives such as emery, sandpaper and nylon scouring pads should not be used to clean surface finished trims. Additionally, acidic or alkaline cleaning agents should generally be avoided.

Should greasy or oily deposits be situated on the surface, it is recommended that white spirits (such as Mineral Turpentine) be used in conjunction with a soft, clean cloth.

Regardless of which cleaning method is employed, all cleaning should be concluded by washing / rinsing with fresh, clean water.

External Use:

Balcony Edge trims are suitable for external use.

Balcony Trim 3m Length						
Code	Size	A (mm)	B (mm)	C (mm)	D (mm)	E (mm)
BET-8-3-(Colour)	8	8.00	56.20	8.60	61.52	48.00
BET-10-3-(Colour)	10	10.00	56.20	8.60	63.52	50.00
